

WCER VALUES

Innovation and Excellence

Continuous improvement is a driver for excellence. We innovate and improve in our work to advance education through leading research and development.

Equitable Education

Equitable education is essential to a healthy society. We aim to reverse imbalances and injustices in education through our work.

Affirming and Increasing Diversity

Individual differences and group diversity inspire creative and equitable outcomes. We actively affirm and seek to increase such diversity in our Center.

Healthy Workplace

The well-being of our workplace enhances success for all. We commit to a workplace based on mutual respect and transparency.

Partnering Across Differences

Diverse backgrounds and expertise improve the quality of our work. We collaborate across disciplines, methodologies, organizations, and communities to strengthen our research and development outcomes.
